```c
#include <stdio.h>
int main(){
    int n1,n2,n3;
    printf("enter three different numbers: ");
    scanf("%d %d %d",&n1,&n2,&n3);
    if (n1>=n2 && n1>=n2)
    {
        printf("%d is the largest number.",n1);
    }
    if (n2>=n1 && n2>=n3)
    {
        printf("%d is the largest number.",n2);
    }
    if (n3>=n1 && n3>=n2)
    {
        printf("%d is the largest number.",n3);
    }
    return 0;

}
```
